

The Tech

VOL. XXIV. No. 44.

BOSTON, MASS., FRIDAY, JANUARY 13, 1905.

PRICE THREE CENTS.

CIVIC CLUB.

Lieutenant Governor Guild addressed Wednesday Evening's Meeting.

Mr. Curtis Guild, Lieutenant-Governor of Massachusetts, addressed the Civic Club Wednesday evening at the Tech Union. Twenty-five men were present. Mr. Guild spoke on "The Duties of a Citizen."

In beginning, Mr. Guild said that men should not only lead the engineer's life but should do their share of the nation's work. Every man should vote. "Evil" candidates have been elected because "highly educated American gentlemen" did not leave their homes for five minutes to vote for honest candidates. These men complain of the "awful decadence of citizenship," but they do not act at primaries and caucuses as well as at elections to remedy it. Mr. Guild related some stories to show what true citizenship really means.

Educated men should not try to shirk jury duty. An intelligent jury returns a righteous verdict, but an uneducated jury returns a corrupt one. Militia men are laughed at, yet, the militia is an important part of our government. It serves as a reserve line for the nation in war, and for the police in peace. The militia-men are "real American citizens."

Every politician is caricatured and made fun of, but it is not the abuse of him at the time that people remember but the results of his work. Our greatest men have been reviled while they lived. These are only the hard bumps of the game of politics.

Many humorous stories concerning Mr. Guild's experiences in campaigning in the West and South greatly enlivened the address, for he proved to be an excellent story teller, and his supply of laughable anecdotes seemed to be unlimited.

At the business meeting, R. P. Lowe, '07, was elected to membership.

At the next meeting of the Club, February 14, an informal debate will be held. The men who are to represent the Civic Club in the debate with the Walker Club will be chosen that evening.

DIRECTORY

Since no directory of Tech activities and interests appears until *Technique* is issued in the Spring, THE TECH has made an effort to compile a "pocket edition" of such a directory. All organizations directly concerned in Tech life, together with the names of the principal officers, are given. We hope our directory will find general use among the officers and students of Technology, and serve also to acquaint other colleges with our organizations.

HUNTINGTON HALL FRIEZE.

The Original Drawings Have Been Purchased.

On January 11, the original drawings of the cartoons in the Huntington Hall Frieze were purchased from Mrs. Nefflen. All except \$15 has been subscribed toward the total amount and it is hoped that it will not be long before the drawings will be completely paid for. The next number of the *Technology Review* will contain engravings of the best drawings illustrating an article by Mr. F. A. Bourne, '95, on the movement to replace the Frieze.

Harvard vs. Tech.

The Tech Hockey Team was defeated by Harvard, last Wednesday on Soldiers field. The Harvard team played an excellent game throughout, especially the forwards, whose accurate goal shooting was a feature. Tech played very loosely, and showed little team work, but this may be overlooked, as the poor condition of the rink has prevented practice for more than a week.

The next game will be with Andover, at Andover, on Saturday, January 14.

The following was the line-up in the game with Harvard;

Harvard, Pell (D. Wagstaff), l. c., Townsend, l. c., Callaway, r. c., Wilder (Foster, Rumsey), r. c., Newhall, c. p., Grant (Sard), p., Tilden, g. Technology, Ford (Coupal), r. c., Loutrel (Coleman), r. c., Miller, l. c., Gilkinson, l. c., Henderson, c. p., Tylee, p., Redding, g.

Notice.

Only sixty-five ballots for the Junior Prom Committee were received up till 1 p.m. Thursday, the time set for the closing of the election. The time has therefore been extended to 1 p.m. Saturday, January 14. Leave ballots at the Cage for Election Committee.

Basket Ball.

Technology was defeated by Harvard yesterday in Basket Ball by a score of 20 to 14 at the Hemenway Gymnasium. At the end of the first half the score stood 9 to 7 in Technology's favor. The game was snappy and well played, the result being in doubt until the last two minutes of play.

The Tech

Published every Monday, Wednesday and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Application pending for entry in the Boston Post-office as second-class mail matter.

WILLIAM A. NICHOLS, PRINTER, 258 SUMNER ST., REAR

For the Hockey Team to be beaten so decidedly by even the fast Harvard men, came as a great surprise to all of us. The Team has this year had advantages which previous hockey teams have not possessed. There are two possible reasons for the defeat, either the individual material for the formation of the Team has this year been poorer than usual, or the practice has not been conducted in a manner calculated to develop a good team from good players. The weakness may also be due to a combination of these two causes. The thing to be done now is for every one concerned to set out in a spirit of determination to improve the Team. It is not yet too late for good men to start practicing; increased energy may be put into the practice; and, finally, good live encouragement may be given by the student body at large.

Relay Trials for B. A. A. Meet.

The first trials of candidates for the two relay teams to run in the B. A. A. Meet were run off at the Gym yesterday afternoon. From present indications Tech will be well represented in both the 390 yard and the 780 yard relays. In the 390 yard trials the following men ran:

Weinz, '08; Williams, '06; Blackburn, '08; Moore, '07; Richards, '07; West, '06; Hersey, '08; Eaton, '07; Youngerman, '07; Fisher, '05; Thomas, '07; Gibbons, '06; Todd, '08; Edmonds, '08; Munro-Zertuche, '08; Loomis, '08; Orr, '08; Clark, '07; M. Allen, '08; Albro, '07.

In the 780 trials:

Chapman, '07; H. Allen, '08; Wilson, '06; Chipman, '07; Pope, '07; Lorenz, '05; Howard, '06; Clapp, '06; Marcy, '05; Starkweather, '07; Allen, '07; Nelson, '05; Clapp, '08; Buckingham, '06; Harriman, '08.

Excursion to Iceland.

Professor Jaggar announces that there will be a geological excursion to Iceland during the coming summer, and that he will be glad to receive the names and addresses of any students of the Institute who would like to join the excursion, in order that he can furnish them with information as plans develop. Professor Jaggar will probably go ahead of the main party, who will join him at Reykjavik about July 2. The route is from Boston to Liverpool, thence to Leith in Scotland, from Leith by one of the Danish Steamers to Reykjavik. These steamers leave Leith once in ten days, the trip lasting four days. The object of the expedition is the study of the volcanoes, glaciers and geysers, which are among the most remarkable in the world. The total expense per man should not exceed \$250.

Suitably recommended students from other colleges may be admitted to the party, and may choose thesis topics in the Iceland field for investigation.
